Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I fail to see who can benefit from this  
legislation except Pharmaceutical Giants (companies  
who are already experiencing huge monetary  
profits). This legislation certainly isn't in any  
way aimed at protecting the well-being of  
individuals (esp. women) who are benefitting medically  
from these individualized, specifically compounded  
medications. And further, I don't see anyone being  
hurt by them. So - to what purpose such legislation?
